

COMPREHENSIVE  
STRATEGY

THE COMPLETE BDR  
SOLUTION

# ON-SITE & OFF-SITE BACKUP

*Backup & Disaster Recovery keeps businesses productive even after a major disruption or disaster. These can happen anytime to anybody.*

Protect critical business data & your entire server configuration, including applications and operating systems

**GUARD AGAINST DOWNTIME!**  
THE BEST YOU CAN DO IS PREPARE.

Understanding these disasters is the first step. The next more important step is for every small business to figure out how best to guard itself against these threats.

## COMMON DISASTERS

1. HARDWARE FAILURE
2. SOFTWARE CORRUPTION
3. CYBER ATTACKS
4. POWER OUTAGES
5. NATURAL DISASTERS
6. HUMAN ERROR

*These disasters should provide a sense of perspective when considering the importance of a disaster recovery strategy.*
